Highlights of Trip

The beauty of God's creations of the scenery and animals. Saw large numbers of each animal and

even the rare snow leopard. The horses are excellent and the accommodations were very comfortable. The guides are extremely professional and worked very hard to get me the best animal available.

Problems/Concerns with Trip/Outfitter

The guides should have access to better optics for the hunt.

To harvest a larger animal, one must be comfortable shooting at ranges of 500 to 650 yards. I was not aware of this, but I was prepared.

Would you recommend this adventure to a friend?
